

Wuko President Shihan Luigi Aschedamini 8° Dan Karate Shotokan

Dear Sport Friends,

it's a great honour for me to introduce the " 5° Wuko Karate Championship for Children, Cadets and Juniores " in Teresina, Brazil.

I want to point up the importance of this event in such a particular period of our great organization. The Championship represents one of the most important competition in this year.

I wish to thank everyone who have made it possible; especially I thank the Ministry of Sport, sensitive and attentive promoter and our valuable Mr. Francisco Bezerra.

The wonderful city of Teresina hosts this important Wuko Championship with friendly hospitality, proving to be particularly open to create events that join people together in the name of sport.

The beautiful discipline of Karate gets together masters and athletes who give much importance to human values beyond political barriers, national or geographic boundary, away from economic interests.

This is the miracle of Karate and this is the only mission of Wuko.

I'm sure that Championship will be the best way to honour our wonderful discipline with competitive spirit and loyalty.

Shihan Luigi Aschedamini

Wuko President

8th dan Shotokan
